# NCEA CREDIT COURSES

Term 1-3 Intakes - 2021

**YOO3EE**  
COLLEGES

SCHOOL OF DESIGN  
SCHOOL OF ANIMATION  
SCHOOL OF FILM  
SCHOOL OF TECHNOLOGY  
SHORT & ONLINE COURSES

## Why choose our NCEA Credit Courses?

At Yoobee we create creatives and we think this starts at high school.

Our courses are specially designed for high school students, and as a Ministry of Education approved provider, we know the value of discovering design early.

Rapid changes in technology, art and communication are increasing the need for high quality, innovative, designers. Our programmes

combine a range of skills, techniques, software and practical learning.

Students who desire higher-level learning and strive to produce work to a high standard will excel in this course. Ideally students who apply for these courses will make the most of this limited spaced opportunity.

**Enrol now, places are limited!**

## JOIN OUR CREATIVE COMMUNITY TODAY!

EXCLUSIVE CONTENT, FREE TUTORIALS, GIVEAWAYS, COMPETITIONS AND CONNECT WITH LIKE-MINDED STUDENTS NATIONWIDE.

## FAQ

### What type of credits are they?

These credits are Unit Standard based.

### Can I do this course if I am not in Y13?

Yes – If you are completing NCEA, your school gives you permission and you feel as though you would be able to complete this level of work. These credits are Level 3.

### When is the latest I can submit my application?

You can apply right up until the day before the start date of the course. Places are limited so enrolling as soon as possible is recommended to avoid disappointment.

### Can this course help me build skills and a portfolio to apply for a full-time Yoobee course?

Absolutely! These courses are perfect to build your skills and create work to add to your portfolio. We even help you with your application to a full-time course during the course.

### Even though this course is an intro level, is there anything I can be familiar with before-hand?

Feel free to ask the course co-ordinator for specific advice on the programme. Having some understanding of the software involved in the course is always a plus!

### Do I need my own software and equipment for my self-directed work?

Yes – We ask that you have your own access to what is required for self-directed work either at school or at home. For in class work we provide everything you need unless advised otherwise.

### How much homework is involved?

There is 3-4 hours per week outside of class time (30-40 over the course)

### What would happen in the event of a potential COVID-19 lockdown?

We have the capacity to deliver courses remotely so your classes would not be affected. As for your self-directed work, please make sure you have your personal access arranged in advance and be well prepared for any potential future restrictions.

### Do you accept Domestic and International students?

Yes definitely! We just need to ensure students who are International, will be able to clearly communicate with your tutor (Oral and Written)

### How do I know that I have the right personal access to software and equipment?

Feel free to ask the course co-ordinator for specific advice on the programme. We will send you a confirmation email and a checklist of what you will need before class starts. For Remote Courses, please make sure you have reliable internet access.

### I am torn between choosing a course, who can I talk to for advice?

Please contact us on **0800 66 55 44** and ask for 'Short Courses' or alternatively email: [shortcourse@yoobee.colleges.com](mailto:shortcourse@yoobee.colleges.com) and someone will be able to personally assist you with providing advice on your study choices.

# 2021 Schedule

## Character Design – 10 Credits

2	Auckland – CBD Wellington Christchurch	5th May 2021–7th July 2021 5th May 2021–7th July 2021 5th May 2021–7th July 2021	Wednesdays Wednesdays Wednesdays
3	Auckland – CBD Wellington Christchurch	28th July 2021–29th Sept 2021 28th July 2021–29th Sept 2021 28th July 2021–29th Sept 2021	Wednesdays Wednesdays Wednesdays

Unit	Title	Level	Credits
18741	Create a computer program to provide a solution	3	6
29793	Investigate, plan, design and create digital outcome solutions to meet the requirements of a specified brief		5

**"The pacing of the course was good.** Left me plenty of time to complete tasks but didn't heap too much onto my plate at once."

Rebecca C – Aotea College

**"The course was flexible and allowed for a great deal of creative freedom, this combined with quite possibly the best, most supportive tutor/teacher I've ever had made this course an absolute blast."**

Mat B – Paraparaumu College

**"Good course with a solid structure.** An amazing teacher who helped explain everything in depth."

Riley T – Newlands College
